EASY MOVE

VIMEC
Easy moving

- Only occupies the space strictly necessary to ensure the user's comfort and safety
- Various personalisation options
- Suitable for both indoor and outdoor installation
- Quick to install with no major building work required
- Reliable, and with a capacity of no less than 400 kg
- On-board telephone and infrared barriers on three sides walls ensuring a safe ride
- Vimec quality guarantee

Design

Vimec's focus on styling is expressed through the shapes and materials chosen to express wellbeing, attention to details, and a love of our work

■ **Easy Move** meets the needs of two different types of user: on the one hand, public and private facilities in search of ways of overcoming architectural barriers through an installation that fits perfectly into its context; on the other hand, wheelchair users who have chosen a vertical lift as the means of moving between floors in their homes.

■ **Versatile**

The **Easy Move** lift gives added value to its setting, through simple **tailor-made** installations, both indoors and out.

Available from two to five floors, it is an **ideal** system both for **renovation** projects and for new buildings: **no masonry work required**.

■ **Comfortable and safe**

Quiet and discreet, it can be used in complete **comfort** and **safety** thanks to the state-of-the-art technical features that safeguard users in operation, with protected, user-friendly controls.

Experience

Vimec is the market leader, and has been designing and building tailor-made installations to improve quality of life for all access needs, both in the home and in public buildings, since 1982.

■ **Customisable**

The **Easy Move** lift is tailor-made not only in its **functions** but also in its personalised combinations; the colours and trims available enable the **Easy Move** to fit perfectly into any context, whether a home or a public building.

Easy Move

The right choice, the choice of taste

■ The domestic lift that increases your home's convenience and prestige.

The **Easy Move** is intended for everyone who gives **priority** to their own **wellbeing** and that of their family. **Comfortable and safe**, it **fits into any context**, guaranteeing your **home** a prestige installation that will **increase its value**.

■ Convenient, effortless

Quiet and discreet, it is absolutely **convenient** even for transporting the shopping, child buggies, and any other heavy or bulky item from one floor to another within the home. With the **Easy Move**, getting around the house **could not be easier**.

■ Customisable

You and your home deserve a lift which is tailored to suit you not only in its **functions** but also in its design and personalised finishes; the colours and trims available ensure your **Easy Move** is just as you want it, the perfect match for its context and your taste.

■ Reliable

The Vimec technology guarantees you a product at the state of the art from every point of view. The manufacturer's **warranty** allows you to cut servicing costs and enjoy all the benefits of **quality** construction.

Sensations

Getting onto a Vimec lift gives you a feeling of comfort and safety, and using it will become a natural part of your daily life.

Easy Move with structure

The Easy Move lift has state of the art structures in terms of strength, versatility and design.

These structures can be customised with different types of glass panelling to suit installations of all kinds, with tailor-made versions and installations even in particularly difficult contexts.

A Vimec outdoor lift

never requires invasive building works: installation is completed quickly and with great care, thanks to a network of skilled installers always up to date with the latest products and techniques.

TECHNICAL DATA

Easy Move by Vimec is an extremely versatile hydraulic lift:

- **Customisable** to the needs of the user and the building.
- Ideal both for **renovation projects** (easy to install in existing shafts) and in **new installations**, since special building works such as an extra room to house machinery, or a pit underneath the lift, are not required.
- The pit required is truly negligible, since a recess just 12 cm deep is all that is needed.
- The lift runs on the standard voltage of 220/240 V and its power consumption is 1.8 kW
- **Compliant with the UNI EN 81/41 standard / Certified to Machinery Directive EC 2006/42**

EASY MOVE

(IN COMPLIANCE WITH THE UNI EN 81/41)

Working load	400 Kg
Travel	13 m
Speed	0,15 m/sec
Pit	120 mm for masonry shaft; 140 mm for structure
Cabin "enclosed" with walls or infrared barriers	
"Simple Touch" calling to floor	
Arrival and departure with soft start/stop system	
Device for communication with outside of cabin	
Automatic safety levelling within	+/- 20 mm
Load-bearing roof	
Certified safety valve	
Electric locks with En 81-2 certification	UNI EN 81-2
Electrical system	
Power	1.8 Kw
Mains voltage	230V-Mono
Motor power supply voltage	230V
Auxiliary power supply voltage	24V

PSP: at partners' service

Partner Support Program: a Vimec exclusive for its partners, aiming to supply each of them, all over the world, with a series of personalised tools for developing their business and offering the end user a better and better service. This programme includes an introduction to the concepts of "accessibility", specific classroom training courses and training in the field for sales staff and engineers, analysis and assistance for the development of the most appropriate market strategies, and backup for the organisation of seminars (e.g. for architects, civil engineering firms, etc.) and for participation at trade fairs. Close co-operation with its partners guarantees Vimec constant improvement of its degree of knowledge of the various markets and thus of their varying needs in terms of accessibility, which translates into the design of suitable products. All oriented towards better management of customer relations, and the achievement of full customer satisfaction.
